

# Windshield Washer Antifreeze

Blended and packaged in drums:

- Concentrate 92% by volume
- Concentrate 72% by volume
- Pre-mixed 37% by volume

The desired percentage of pre-mixed windshield washer is 37% Methanol which yields a freeze point of  $-20^{\circ}\text{F}$

**We sell two dilution percentages of the  
Windshield Washer concentrate**

- 92% Methanol
- 72% Methanol

*2 drums of 92% concentrate yields 5 drums of pre-mix with a freeze point at  $-20^{\circ}\text{F}$   
2 drums of 72% concentrate yields 4 drums of pre-mix with a freeze point at  $-20^{\circ}\text{F}$*
